Philosophy of Consulting

Equitable outcomes for all children depend on empowering educators to recognize and build on their individual strengths, as well as those of their students. I believe that by engaging in thoughtful discussion, meaningful inclusion, and a deep commitment to student-centered learning we can collaborate to ensure schools, students, and families thrive.

“Her dedication to empowering others is exemplary, and I have no doubt that she will bring the same level of excellence and innovation to your institution.”

“Though I grew up in rural Minnesota, my first teaching job was in Crown Heights, Brooklyn, New York.”

“I love to garden and enjoy creating beautiful landscapes as well as exchanging tips with others.”
